# Selling Points

04

It is adopted with PLC controller; main motor is equipped with variable frequency speed regulation; touch screen man-machine interface. Easy for parameters setting & operating. Chinese and English languages ( optional )

The roll film is pre-packaged through the heat-sealed area. The two rollers are called the film-sealing wheel, which is mainly used for arranging the bag. The middle part is the heating wheel. The material is pure copper. The heat sealing speed is fast and the effect is good.

**Ruian Mingyuan Machinery Co., Ltd**

## Plastic Film Roll rack Device

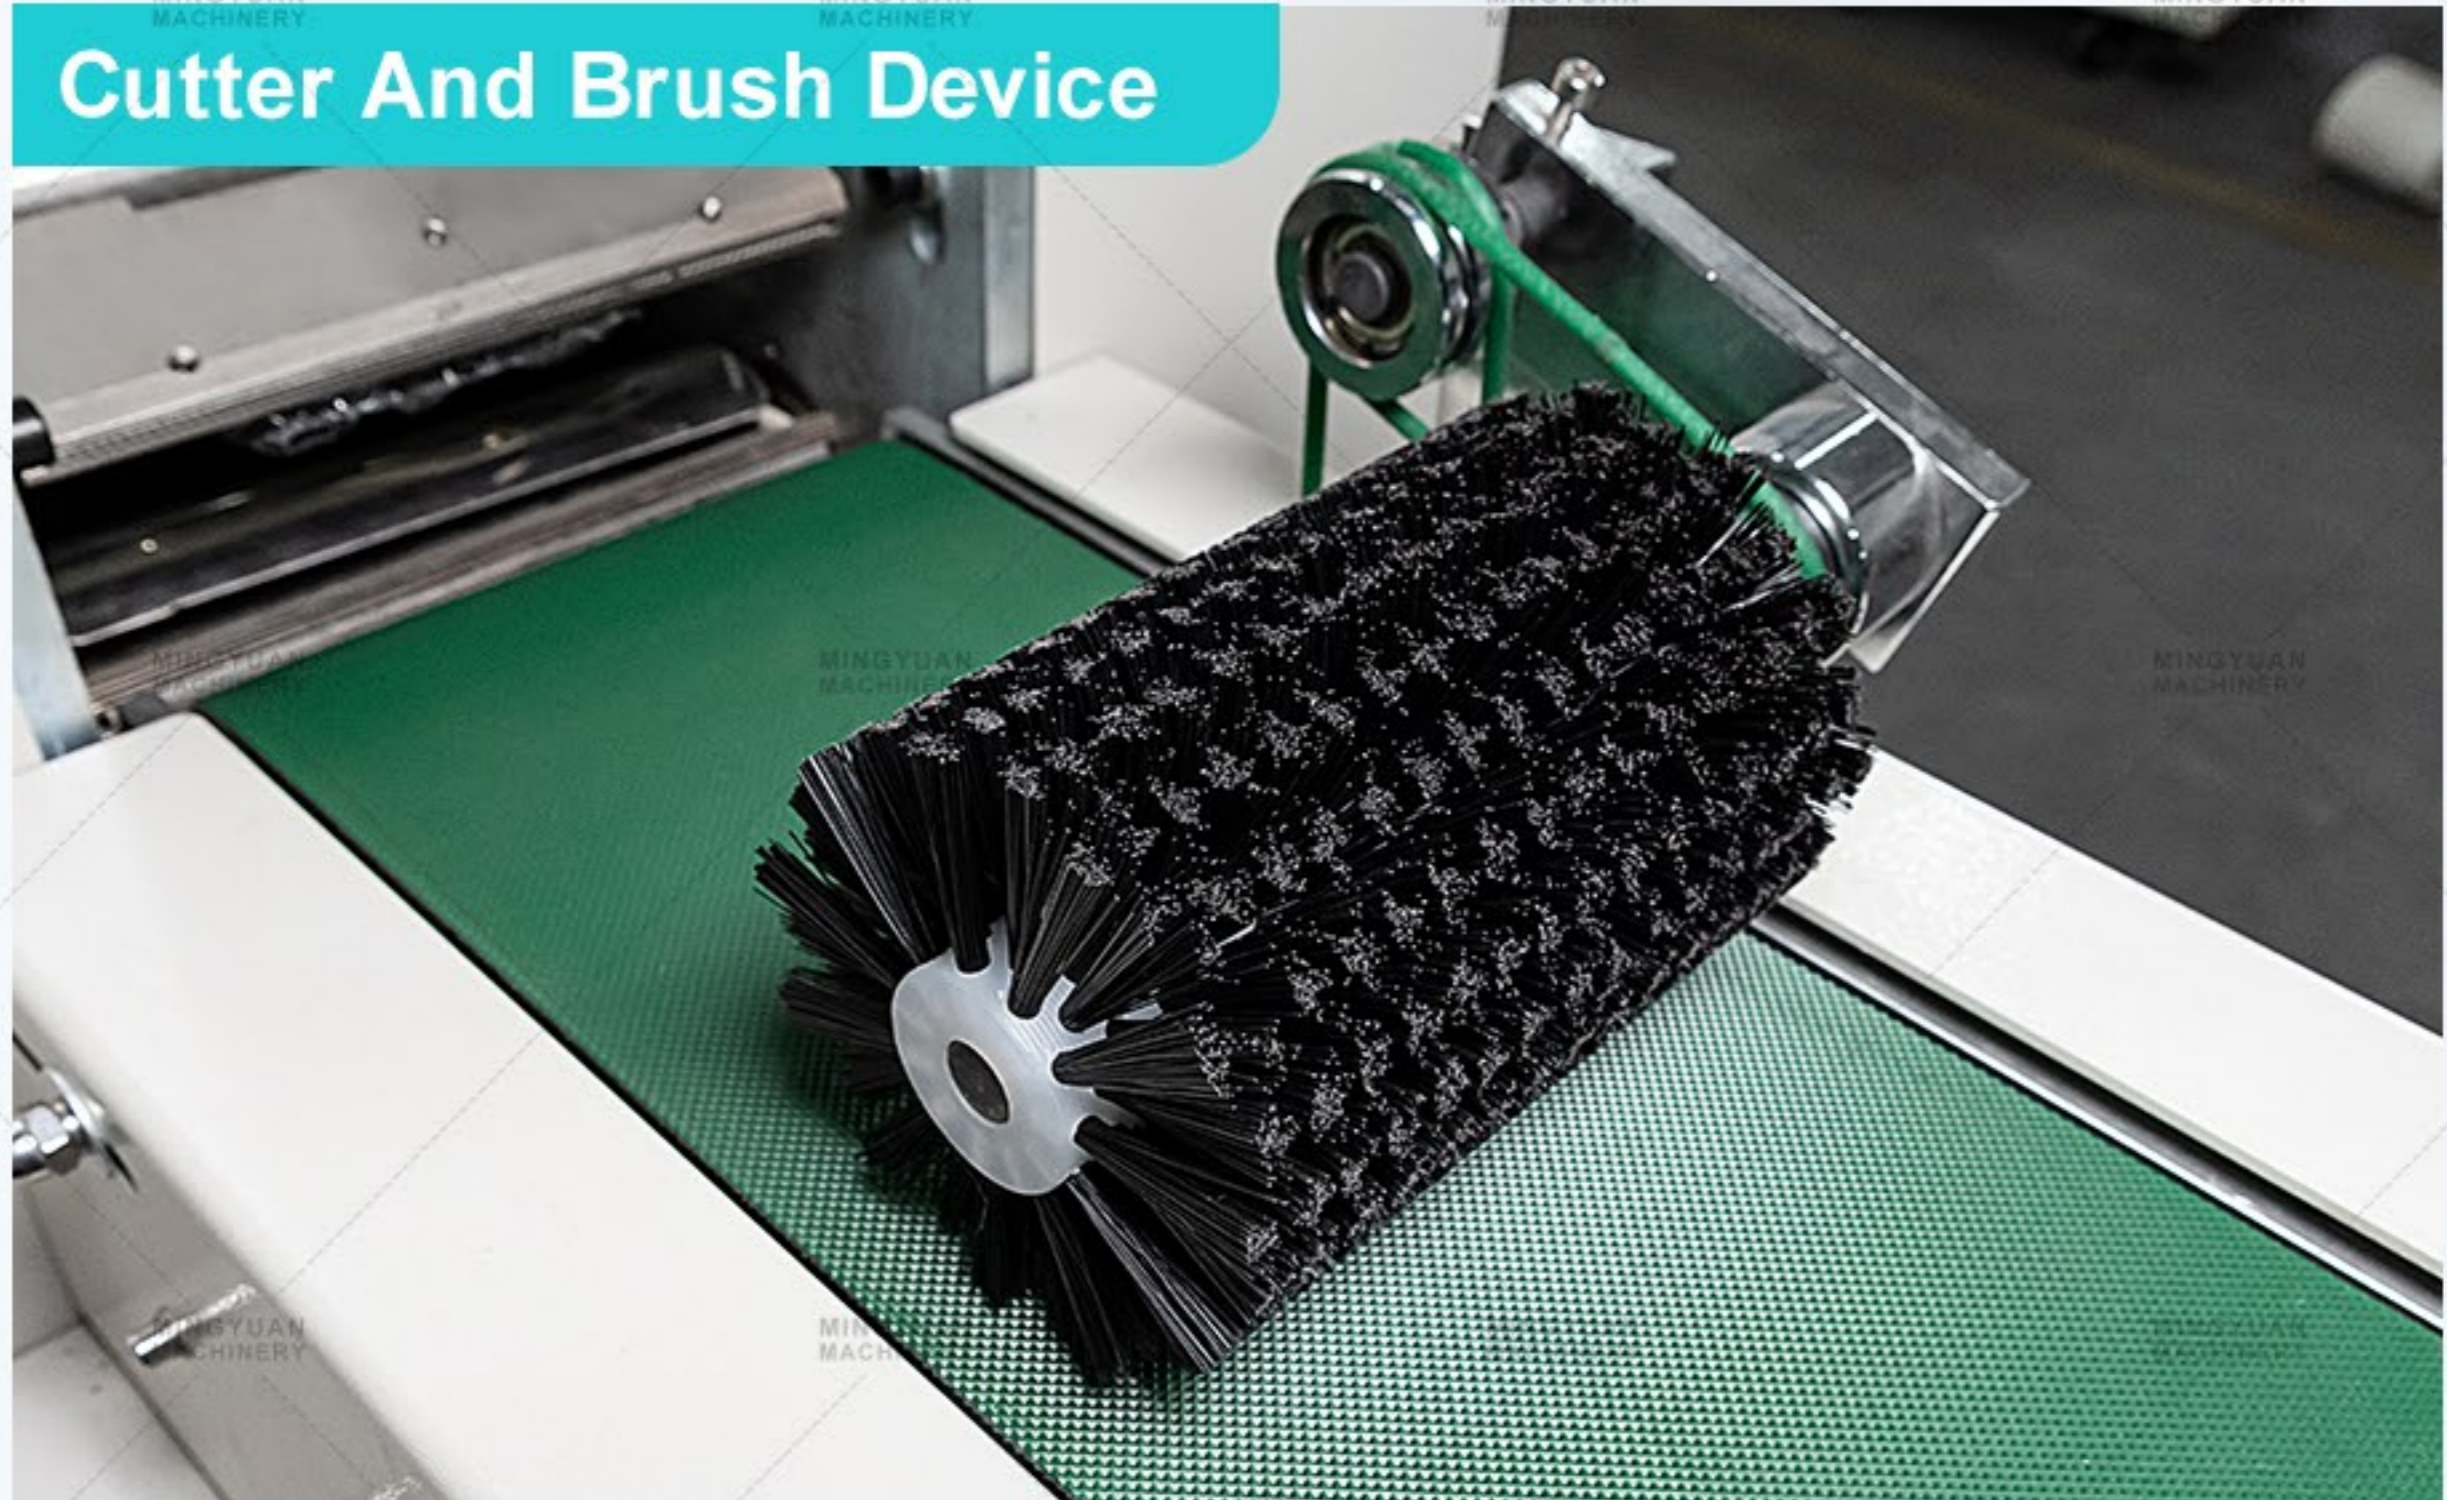

Coordinating the film pulling process with multi-Linkage roll film shaft , adapt to more plastic film materials , film rolling process is more smoothly

## 304 Stainless Steel Conveyor Platform

It can easily transfer different products to the bag former and meet food grade packaging requirements

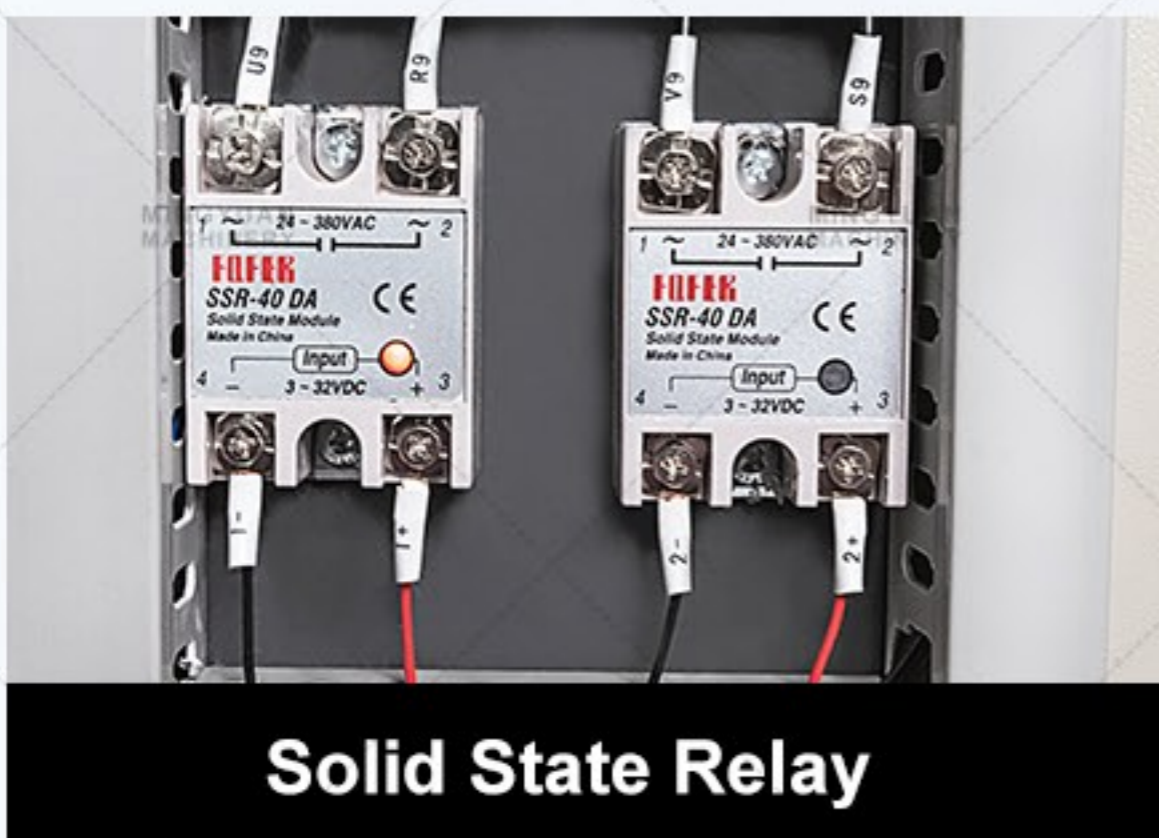

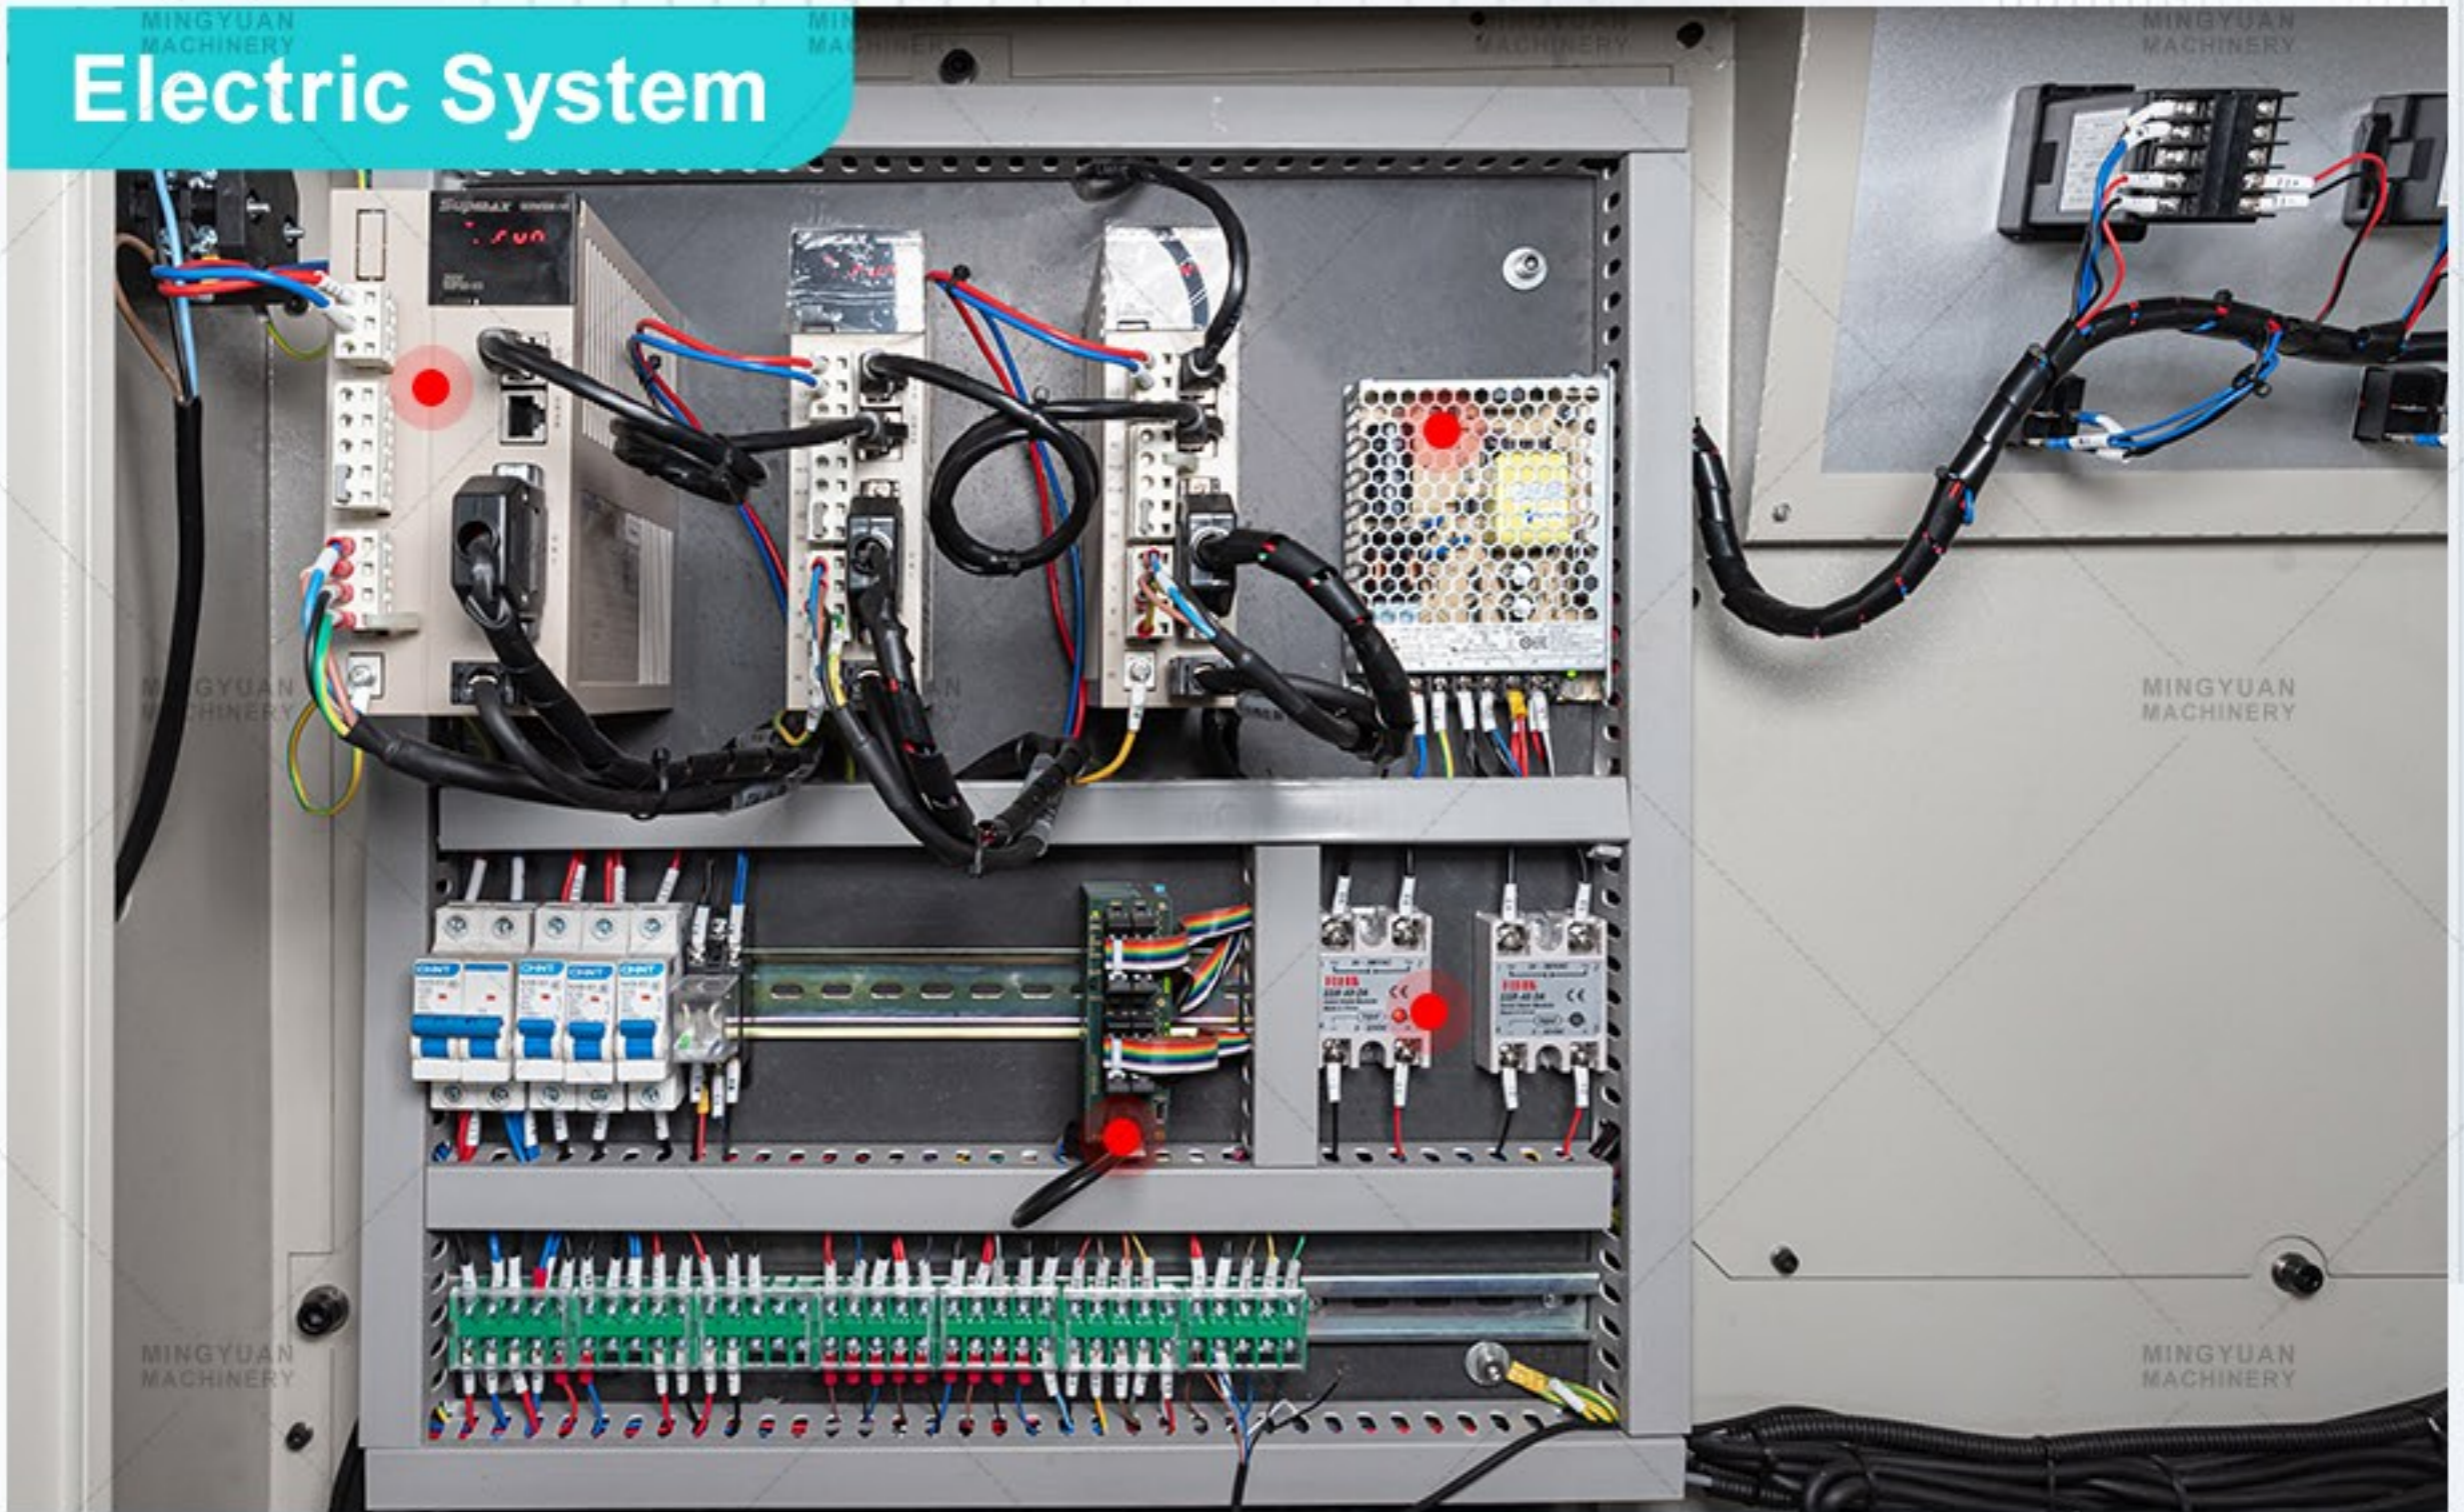

## Cutter And Brush Device

Durable Cutter : without sticking knife or wasting film .  
Outlet( Brush to ensure orderly product discharge)

# Selling Points

06

Quality Brand electric System like Delta, Schneider. PLC control system be with Delta Brand Made in Japan with Reliable quality.
